

We're Recruiting!

Registered Energy Advisor – Independent Contractor

New federal retrofit and home assessment funding will give Canadian homeowners incentive to improve the energy efficiency of their homes — making energy efficiency assessments a fast-growing industry.

To support this growth, EnviroCentre is seeking Energy Advisors to help us expand. If you're interested in the Home Energy Assessment industry, we want to hear from you — whether you're a seasoned advisor or totally new to the industry.

Why choose to work with EnviroCentre?

With over 20 years in the business, we're a long-standing and reputable NRCan Licenced Service Organization, and a local not-for-profit environmental organization. We provide:

- Industry-leading compensation for energy assessment work
- A team of qualified professional mentors, ongoing training and skills development opportunities
- Excellent technical, administrative, and client support services, focusing on exceptional quality and care
- A team approach to work that makes a difference in the world

Do you have:

- Background in home construction or building science
- Past experience as an Energy Advisor
- Excellent communication and people skills
- A desire to support the Green Economy and build better future for the planet
- An interest in being part of a multi-billion-dollar emerging industry?

Requirements:

- Knowledge of home construction and renovation
- Basic computer and administrative skills
- Exceptional customer service skills
- Motivated, enthusiastic, and reliable
- Own transportation and a clean driving record
- Police Record Check

We want to hear from you

If you are interested in joining EnviroCentre's team as an independent contractor, please send us an email to info@envirocentre.ca. Please include your CV.

EnviroCentre welcomes and encourages applications from people with disabilities. If contacted for an employment opportunity, please let us know if you require any accommodations to ensure you can participate fully and equally during the recruitment and selection process.
