

## There has never been a better time to invest in your home's **energy efficiency**.

- ✓ Up to **\$10,000** in rebates
- ✓ Access to low interest loans
- ✓ Reduced energy bills
- ✓ Increased home comfort
- ✓ Healthier home
- ✓ Fewer climate emissions

A **home energy assessment** is always the first step to accessing rebates & loans, and planning energy efficiency upgrades.

### Rebates are available through the HER+ Program

The Canada Greener Homes Grant and Enbridge Gas have partnered to provide enhanced rebates of up to **\$10,000** under the Enbridge **Home Efficiency Rebate Plus (HER+)** program. A \$600 rebate for home energy assessments is also available. See reverse for details!

### Interested in Financing Options for Bigger/Deeper Projects?

Learn about all the financing options available for energy upgrades at [BetterHomesOttawa.ca](http://BetterHomesOttawa.ca).

For information on our mass energy retrofit program visit [EnviroCentre.ca/FutureHomes](http://EnviroCentre.ca/FutureHomes).

EnviroCentre is an Ottawa-based non-profit organization working to reduce greenhouse gas emissions in our region. We're also a service organization offering home energy assessments with Registered Energy Advisors.

# HER+ Rebate Overview

## How does it work?

- 1 Schedule a home energy assessment with an REA - **call EnviroCentre today!**
- 2 Receive your report with your recommended upgrades.
- 3 Carry out the recommended upgrades - consider going further to **maximise the benefits!**
- 4 Carry out a follow-up home energy assessment to measure your energy savings.
- 5 Receive your rebate cheque - including up to \$600 to cover the home energy assessments.
